

DIGNITY HEALTH FOUNDATION

Humankindness Gala

THROUGH THE KALEIDOSCOPE **KINDNESS REIMAGINED**

No matter where you are born, grow, work, live or age, we believe every human being deserves the opportunity to be healthy.

Dignity Health Foundation supports programs that improve health, particularly for our most vulnerable patients. Our goal is to improve care for our underserved communities, keeping the healing power of humanity and kindness at the heart of our mission.

The Humankindness Gala makes a lasting impact on major social issues facing our communities. In 2018, your support will help us to continue our work in addressing **Postpartum Depression, Human Trafficking, and Concussion Education**.

It will also support work underway to address those **Social Determinants of Health** that create health challenges which affect our underserved communities at drastically higher rates. We're committed to:

- Tackling the serious **behavioral health** challenges that face poor communities. An overwhelming majority of people with mental and psychosocial disabilities are living in poverty, poor physical health, and are subject to human rights violations.
- Addressing **domestic violence** and providing trauma informed care that will address the physical and emotional health effects seen at much higher levels in our underserved communities.
- Managing chronic conditions like **asthma and diabetes**, diseases that continue to be major burdens where air quality is poor, food insecurity is high and finding healthy food options is difficult.

**You're what humankindness is all about
– we need your help to make a difference.**
